REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to oxidize or have an oxidized tunable etch resistant layer. Further, there is no suggestion in the art to oxidize this type of layer. The prior art merely uses such a non-oxidized layer in the structures. There is no reasoning or suggestion in the art to preform the oxidization step and create an oxidized layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert M. Kunemund whose telephone number is 571-272-1464. The examiner can normally be reached on 8 hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
